Excerpt: . . . revived, though with his habitual prudence, all the uncertainties and differences of opinion which we find among the Church Fathers as to the list of canonical and non-canonical books, the homologoumena, the antilegomena, and the apocrypha. No doubt he strove to reconcile all these literary facts with the reality of inspiration, but he profoundly modified the idea of inspiration. He was especially fond of using it as a weapon against the Protestant dogma, and to show that, after all, the only basis for the divine authority of the Scriptures was the present authority of the Church. But in that case what does the latter rest upon Catholics and Protestants, equally embarrassed before the witness of history, can escape its testimony only by shutting themselves up in vicious circles. Jean Leclerc developed the criticism of Richard Simon, and Semler, treading in their footsteps, went still...

Reviews

Extensive information for book fans. It is written in basic words and never hard to understand. It is extremely difficult to leave it before concluding, once you begin to read the book.
